

ROBINSON LIGHTING® 1 YEAR LIMITED WARRANTY

Congratulations on your recent purchase from Robinson Lighting®. We make every effort to ensure the quality and durability of all our products. As part of this on-going commitment to customer satisfaction, we are proud to offer this 1 year Limited Warranty covering any defects in your purchased product occurring under normal use during the Warranty Period.

This One Year Limited Warranty extends for a period of 365 days from the date of purchase (5 years for LED products). During this Warranty Period, Robinson Lighting will replace, at no charge, either the entire product or any part(s) and/or component(s) deemed to be defective related to manufacturing issues. If an exact match for the warranted product is not available, a replacement product as close to likeness as currently available at that time from that particular manufacturer will be provided. The Limited Warranty does not apply to product problems caused by improper storage conditions, improper installation procedures, malfunctions or damage not directly resulting from product defects existing at the time of purchase.

This Limited Warranty does not apply to light bulbs and does not include installation costs related to the product under warranty. To obtain the warranty service, you must contact Robinson Lighting® directly. Our friendly knowledgeable staff will determine the nature of the problem affecting your product(s) and work with you to resolve the issue.

Thank you for your business,
Robinson Lighting®
